Alternative View Resource List

About Agriculture in the Classroom-Manitoba

Agriculture in the Classroom-Manitoba Inc. (AITC-M) encourages Manitoba students to develop critical thinking skills related to agriculture, food, bioproducts and life sciences. Working with commodity and industry-related organizations, AITC-M's programming, events and services will further develop future decision makers and entrepreneurs.

Food Inc. – Alternative View Resource List

Here is an accurate, balanced and current list Agriculture in the Classroom-Manitoba's Curriculum Specialist compiled to offer an alternative view to topics discussed in Food Inc.

ALTERNATIVE VIEW RESOURCE LIST

To the teacher:

If you are showing 'Food Inc.' the movie then here are some resources to use with your students to:

- Provide different view points
- Foster media literacy
- Create opportunities for critical thinking
- Stimulate debate

'Food Inc' provides one particular view of food and USA agriculture.

Below you will find the **United States Agriculture and Food Industry's Response to 'Food Inc.'** the movie that provides alternative viewpoints and information on food and agriculture in the USA.

Even though Canadian and USA agriculture are highly integrated and have much in common due to our geographical proximity and trade, our agriculture industries and regulatory bodies are not the same. Therefore below you will also find, **Recommended resources for Canadian Information on Canadian Agriculture** that will provide your students with a uniquely Canadian perspective.
